CASE No.

777 - 12

Case Description:

"Earth is Round"

The Bible informed us that the earth is round about 2,700 years ago, where as humans did not discover this until about 500 years ago. *"He (God) sits enthroned above the circle of the earth."* (Isaiah 40:22) Isaiah was written roughly 700 B.C. Christopher Columbus did not discover or prove this until roughly 1,500 A.D. This provides compelling proof the Bible is supernatural in origin.
